Oral Réhabilitation from diagnosis to delivery

mimétika
alumni & friends

10.9. – 12.9.2026
Bern, Switzerland

10.9. – 12.9.2026 | Bern, Switzerland

Mimétika 2026

After 4 great year-long programmes, 2026 will be different - we are focussing on our mimétika family.

Bringing it back to the people who make mimétika what it is - you, our alumni. But to keep it fresh, our alumni get to invite some friends.

Do you have a colleague who might enjoy meeting like-minded individuals whilst learning from the best? Perhaps they are interested in advanced adhesive dentistry? Then this could be an opportunity to share what you have enjoyed.

Each registered alumnus can invite a friend to register for the same fee to enjoy full involvement, and full immersion into the Mimétika family.

One key event. | One great speaker. | Oral rehabilitation - start to finish.

Bern, September 2026.

location	price
Casino Bern	CHF 2000.-

During these 3 days you will enjoy teaching and hands on in this beautiful UNESCO world heritage city.

- **Director at FMS Training and Clinic, Buenos Aires, Argentina.**
- **Bio-Emulation member.**
- **Lecturer at international courses and conferences in The Americas, Europe and Asia.**

This course provides a clear and practical framework for modern oral rehabilitation, guiding participants from diagnostic planning to definitive restorations. It clarifies the distinctions between diagnostic and therapeutic mock-ups, explores the most relevant temporary restoration techniques—including PMMA and composite options—and highlights the essential digital tools used in today's workflows. The program concludes with evidence-based protocols for material treatment, finishing, and polishing to ensure predictable, long-lasting esthetic results.

SEPT

Thursday, Sept 10th 2026
Day 1 : 12.00 – 18.30 h

Comprehensive Oral Rehabilitation Planning

Analysis of the diagnostic workflow and its relevance in full-mouth rehabilitation.

Coffee break

Differentiation between the diagnostic mock-up (and the role of smile design) and the therapeutic mock-up (and the importance of facial and interocclusal records).

Coffee break

Common sources of confusion and clinical strategies to ensure precision and predictability.

19.30 social dinner

Friday, Sept 11th 2026
Day 2 : 09.00 – 15.30 h

Temporary Restorations

Overview of different types of temporary rehabilitations: PMMA, injected composite, and stamped composite restorations.

Coffee break

Advantages, disadvantages, and clinical indications of each technique.

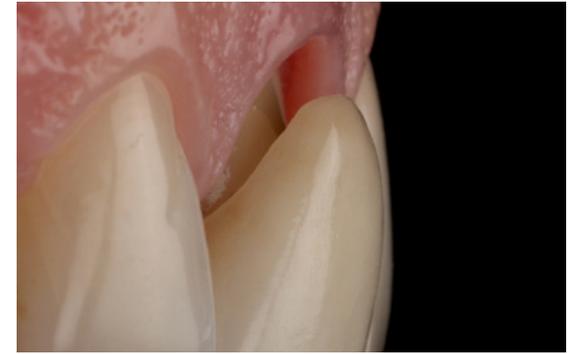

Coffee break

Practical considerations for esthetics, function, and biological response.

optional social activities after the days lecture programme

19.30 gala dinner

Saturday, Sept 12th 2026
Day 3 : 09.00 – 15.30 h

Definitive Restorations

Detailed analysis of intraoral scanners and their role in digital workflows.

Coffee break

Surface treatment of different restorative materials prior to bonding.

Coffee break

Finishing and polishing protocols for optimal long-term performance and esthetics.

optional social activities after the days lecture programme

conference venue

The Casino Bern is a historic social venue and events center in the heart of the city, bringing together culture, gastronomy, and events under one roof. The restaurant, located in the middle of Bern's Old Town, boasts what is likely the most beautiful terrace in the city – offering everything from Italian and French specialties to exquisite desserts.
